But Smith, well known operator of the Hog Ford moonshine still says the proposed "absolute" prohibition movement will not affect his business any way as it goes, as he has always been bitterly opposed by the government any way. He is of the opinion that they will be a little more lenient with him than in the past from the fact that he has always used grain very sparingly in the manufacture of his goods.

Ellick Hellwanger was the party of the first part in a shooting affray at the Hog Ford moonshine still house Saturday afternoon. However, he got the advantage of his opponent and fired at him several times in succession, under the plea of self-defense. FEDERAL MOBILIZATION OF LABOR IN ARIZONA

Thomas Cross of the employment service of the department of labor in Arizona, has received a telegram from Washington, stating that the senate appropriations committee reports a bill providing \$7,500,000 for the use of this department. Cross says that part of this money will be used in Arizona for the mobilization of labor, as it is the plan of the department of labor to take over the entire distribution of labor during the period of the war. This will include taking labor from non-essential industries and placing it in essential branches of industry.

OVERLAND TRIP INTERESTING

Accompanied by his son, Mr. John Sidebotham arrived in Clifton last Monday from his home in California, making the trip in his Ford car. He came into Greenlee via the Apache reservation from Springerville and Holbrook, and said the trip was one of much pleasure, as the scenic attractions along the route are the finest to be seen.

"There were many things of interest to be seen along the way, and much to interest an observing person," he stated to the Copper Era man after his arrival Monday. "I have lived in Arizona for many years, and find many changes have been made in this state since I left here for California last February. I still call Clifton my home, though I am temporarily residing in California.

"I found that work on the railroad through the Apache forest is progressing rapidly, and much big timber is being gotten out in that reservation. I was told that the government is having men catch the wild horses in Apache forest for sale, as they are paying 5 to 6 cents per pound delivered at the railroad. It is stated that these animals are being used for canners, but was not told for whom the meat will be prepared. The best animals are turned back into the forest, especially the mares.

"We found much rough country, and the roads correspondingly bad, especially the last part of the journey. But there was much fertile and level land also seen. While enroute we passed through many interesting scenes, not the least of which I was most interested in the Petrified Forest and the old village of cliff dwellers near Flagstaff.

"While I am glad that I have reached my destination, yet I would not have missed the trip for any reasonable sum."

Mr. Sidebotham, when in Arizona, made his home at Morenci, and is well known in Clifton also. He and son will remain here all summer, and will be the guests of his brother, Thomas Sidebotham.
